QE II Library - Wireless Printing Service – Windows XP

<http://www.library.mun.ca/guides/howto/WirelessWindowsXP.pdf>

Who can use it?

Anyone who is logged into the MUN wireless network and using Windows XP.

Where can I use it?

Anywhere that you can make a connection to the MUN wireless network.

Will my job print immediately?

No. Your job will be queued on the print release station until you are ready to print it out. You have up to 24 hours to come to the library and print out your job before it is deleted from the print queue.

Where is the printer?

In the lobby of the QEII library.

How much does it cost?

The cost is 5¢ per page. You will need your student card in order to pay for your print job.

How do I install the service?

You will only need to install the print software once. After this you can send a job to the library printer whenever you wish.

Instructions for installing wireless printing for Queen Elizabeth II Library – Windows XP

Steps 1-4 are for removing the old version of the Pharos software. If you have not installed wireless printing on your laptop prior to December 5, 2007 start at step 5.

1. From the Start button go to Settings, click on Control Panel, click on Add/Remove programs.
2. Scroll down to find the Pharos Program . Click and remove Pharos.
3. Click “Run Uninstaller”. Click “Next” and follow the on screen instructions (clicking Next).
4. Restart if requested.
5. Open your Internet Explorer and type in the following URL – <http://falcon.library.mun.ca/uniprint/Packages.asp?AllPackages>
6. Select the QEIIWireless link that is 39.54 MB in size to begin your install

Windows Internet Explorer window showing the URL: <http://falcon.library.mun.ca/uniprint/Packages.asp?AllPackages>

Pharos
Uniprint 7.2

Name	OS	Last Built	Size
HSL_Public	Autodetect	5 Dec 2007 13:21	673.22 KB
HSL_Wireless	Autodetect	5 Dec 2007 13:22	673.20 KB
QEII_Queue	Autodetect	3 Dec 2007 15:38	673.25 KB
QEIIWireless	Autodetect	4 Dec 2007 09:52	673.26 KB
HSL_Public	Win 2000/XP/2003	5 Dec 2007 13:21	15.29 MB
HSL_Wireless	Win 2000/XP/2003	5 Dec 2007 13:22	15.29 MB
QEII_Queue	Win 2000/XP/2003	3 Dec 2007 15:38	39.54 MB
QEIIWireless	Win 2000/XP/2003	4 Dec 2007 09:52	39.54 MB

[View Autodetect Packages](#) [View Module List](#)

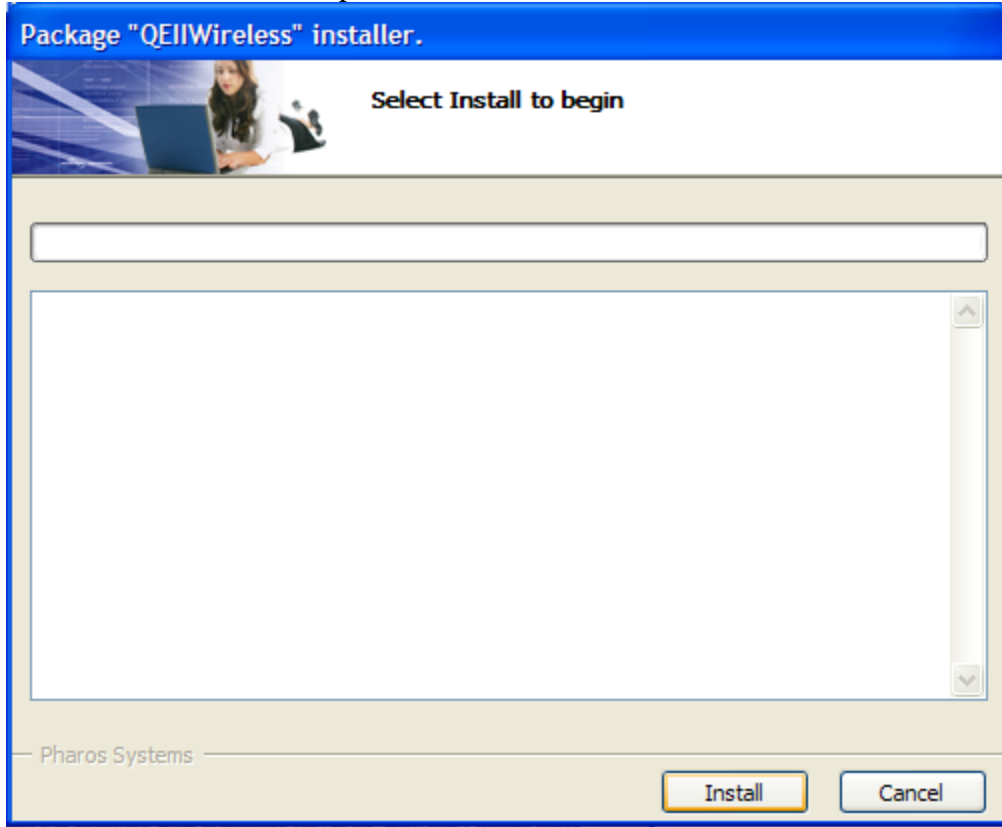

7. Select Run from the popup box

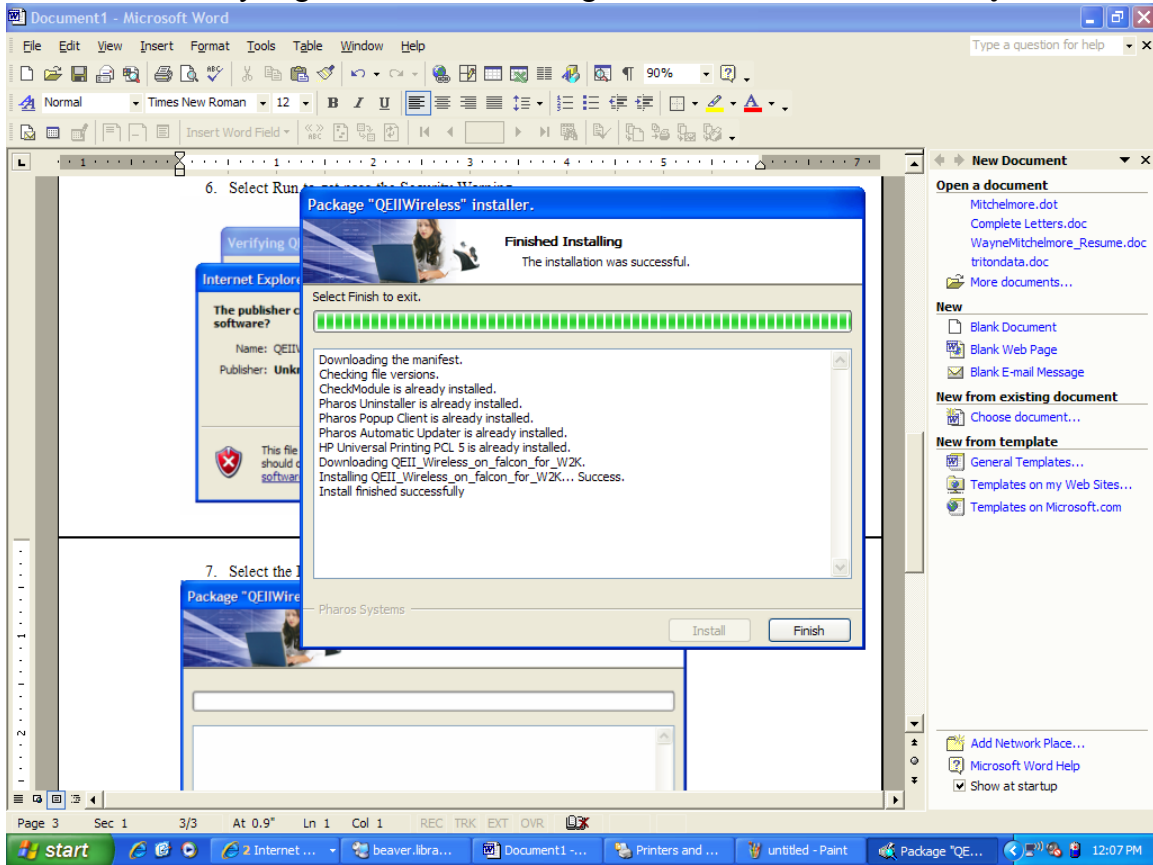

8. Select Run to get pass the Security Warning

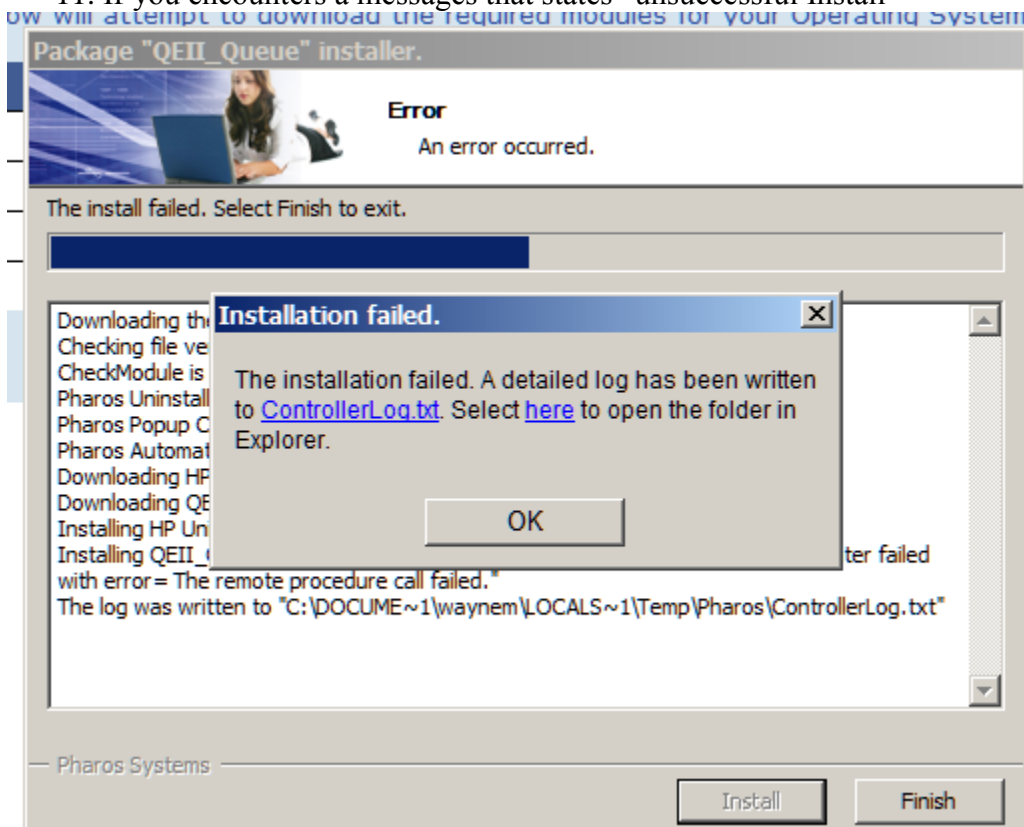

9. Select the Install option to continue

10. Wait until you get a successful message “Install finished successfully”

11. If you encounters a messages that states “unsuccessful Install”

12. Just select the “OK” button; then the “Finish” Button. Delete you newly created printer and then re-run the setup again starting at step 5. (You may have to refresh your printer window in order to see the newly created printer) The setup this time will only install the last module that failed; therefore it will install faster.
